This kit contains

eGo-C atomizer Head x 5
eGo-C atomizer base x 2
eGo-C atomizer cone x 2
eGo-C 650mAh battery x 2
eGo-C USB Charging Cable
eGo-C pouch
Tank Cartridge x 5
USB Adaptor
Manual

* Display is a component of the atomizer kit

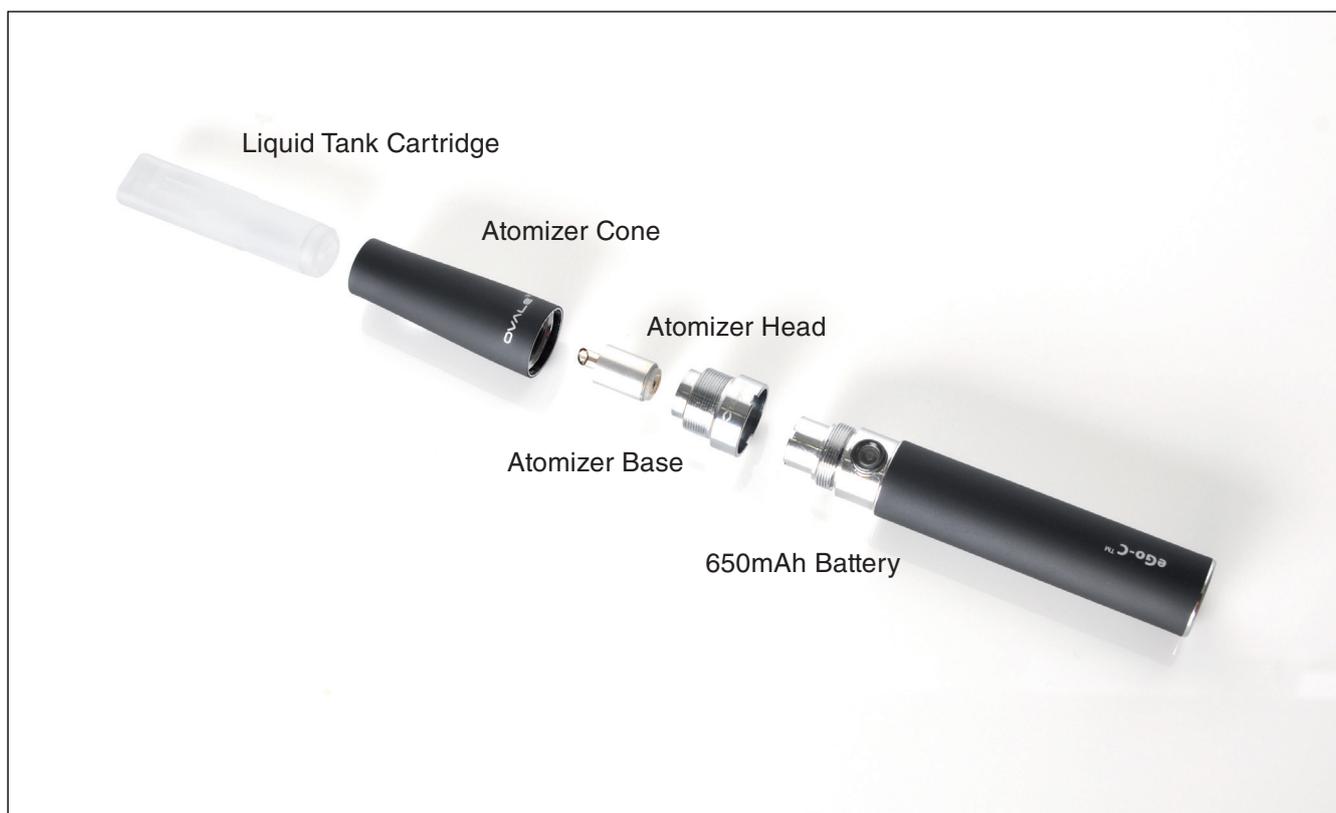

The eGo-C (Changeable) System introduces a new reliable and convenient way to change your atomizer. For the first time, anyone can easily change their atomizer with the new eGo-C system. It is designed to allow users to quickly check their atomizer if they encounter any problems or simply want to change their atomizer. After diagnosing the problem, users can replace the atomizer head with one of the extra atomizer heads in the kit. It becomes like a newly purchased atomizer again.

The Go-C kit comes with a 3.7volt .650m AH rechargeable battery with a power saving / safety function which allows you to turn on and off the battery. This prevents accidental discharge of battery when not in use. The 650mAh battery enables over 800 puffs a day. It also uses the tank system with dual air circulation structure which provides rich vapor and great taste.

Patent Application No: No. 20-2011-8474 | Issue tank cartridge design, Registration No. 30-0600779

※ We reserve the right to change components and functions of the e-cigarette in order to improve the product without notice to consumers. Please visit our website for more up to date information at www.ovaleusa.com

This kit contains

Charging the battery

The eGo-C kit comes with a 3.7volt .650m AH rechargeable battery with a power saving / safety function which allows you to turn on and off the battery. This prevents accidental discharge of battery when not in use. The 650mAh battery enables over 800 puffs a day. The battery is shipped in the off position. In off position, the eGo-C will not function even when pressing the LED button. To turn on battery, press atomizer button 5 times within 2 seconds. You will see LED button flash. To turn off battery, press LED button 5 times in 2 seconds.

To Charge battery, gently screw battery unto the USB charger. Plug USB cable into a USB charger or a computer. Battery should flash to show it is charging. The light on the USB charger is red when charging and green when fully charged. When battery is fully charged, unplug from the wall charger.

- Use only the dedicated USB charger provided to avoid damaging battery.
- Use the high voltage port to charge battery properly when using a computer.
- Lithium-ion battery is a consumable item usage time will gradually become shorter.
- Charge battery fully before using the first time.

How to assemble your eGo-C

You need the following components to assemble the eGo-C system: Tank Cartridge, atomizer kit and battery.

First, Screw the battery and atomizer components together. Next, gently push the tank cartridge into the atomizer. Do not use excessive force when combining the parts. It may cause damages. The eGo-C is now assembled and ready for use.

How to add liquid to the tank cartridge

There are two options available for adding liquid to the tank cartridge.

Open the cap on the Tank cartridge and pour the liquid into the cartridge opening. When almost full, close the cap on the cartridge. Please ensure cap is tightly closed to prevent leaking.

Make sure the seal at end of the tank cartridge is punctured. Insert the tip of the liquid bottle into the open hole and gently squeeze liquid into the cartridge. Be careful not to overfill the cartridge.

How to replace atomizer head

First, unscrew the base of the changeable atomizer unit. Next remove the tank cartridge at the top of the atomizer unit. The atomizer head should fall out. If it does not fall out, gently tap the base of the atomizer cone on a hard surface until the atomizer head falls out. You can now replace the atomizer head.

Take the new atomizer head and place it into the base of the cone. Make sure the spike of the atomizer head does into the cone first. Next, screw the base of the atomizer unit unto the cone. Then, replace the cartridge.

Screw the atomizer with the new atomizer head back unto battery and it is ready to use again.

How to use the eGo-C

First, ensure the eGo-C system is fully charged and assembled correctly. Make sure battery is turned on. (See battery saving features) To use, simply inhale slowly while pressing the LED button on the battery. You will feel and taste the vapor gently moving into your mouth. Let the rich vapor collect in your mouth and enjoy the taste. Do not use short strong inhalations. Do not press the LED button too long. It will cause overheating and may result in product failure.

■ Battery power saving feature

This product's battery has a power saving feature to avoid battery drain. To switch to the sleep mode, press the LED button five times within two seconds. The LED button will flash a few times as the battery goes into sleep mode. The e-cigarette will not function in this mode. To turn off sleep mode, press the LED button five times within two seconds and the battery will return to standby mode.

■ Proper separation tank cartridge

To separate the tank cartridge from the eGo-C, hold it with the battery pointing up towards the sky. Next slowly twist and pull the cartridge down and out of the atomizer chamber. This prevents accidental spilling of liquids if the cap is accidentally opened by the leading pin of the atomizer.

※ Excessive use of this product may be harmful to health.

Maintaining the product

The eGo-C needs proper maintenance to make sure it works well for a long time. Please keep in a clean environment such as a case. Regularly wipe off excess dirt on joints and outside surfaces of the eGo-C.

■ Battery

Use the wall adapter to recharge the battery if it is fully discharged. Do not store battery in direct sunlight, excessive heat, near fire or in places with extreme cold or high humidity. Do not drop or puncture battery.

■ Liquid

Storing liquids in an environment that is too hot or too cold may cause it to deteriorate. Liquids should be stored in a cool place away from direct sunlight. Do not freeze liquid. Do not drink liquid. If liquid gets into your mouth or on your skin, wipe area with a tissue and rinse clean

■ Atomizer kit

if you experience severe heat during product use, discontinue use temporarily until it cools enough to hold. If the coil in the atomizer head is dry, you may experience burning taste. Please ensure there is enough liquid in the atomizer.

■ Tank cartridge

Clean the tank cartridge regularly by wiping off excessive liquids on the cartridge. Clean old liquids out of the cartridge. If liquid accidentally get on your skin or on your lips, wipe area with a tissue or wash off liquid with water. Replace cartridges often. Precautions and Frequently Asked Questions. Read the manual first before using the product. This makes it easier and safer to use the product after you have read all the instructions and precautions.

Precautions and Frequently Asked Questions

Read the manual first before using the product. This makes it easier and safer to use the product after you have read all the instructions and precautions.

- Do not remove the protruding pieces of the tank cartridges.

Do not remove the protruding pieces on the cap of the tank cartridge. If you remove them, it may create crack or holes in the cartridge which will cause leaking.

- Please refrain from removing components such as the tank cartridge unnecessary or frequently.

Removing the cartridge frequently may damage the cartridge and cause leaks.

- Small parts in tank cartridge

eGo-C tank cartridge contains small parts which can present a choking hazard under certain conditions. Please do not bite or use intense pressure when vaping.

- Liquids on atomizer

Liquids may build up in atomizer chamber and on the surface of the tank cartridge. This happens as the vapor cools and returns to liquid form. This is normal. Please wipe off liquids before using.

- Burning taste

If you encounter burning taste while using the eGo-C, try the following methods.

Ⓐ If you encounter burning taste while using the eGo-C, try the following methods.

Ⓑ Shake eGo-C back and forth 2 to 3 times quickly. This helps get liquids back into the chamber.

Then continue using as normal.

Ⓒ If not resolved, then repeat the method again or replace the atomizer head.

- Ensure the tank is fully inserted into the atomizer chamber. If there is a space between the cartridge and the atomizer,

it may create abnormal air flow and could cause fluid leaks.

■ Refill the Tank cartridge before it is fully empty. When the liquid level goes below 10%, the remaining liquid may flow out and cause leaking. This phenomenon is the result of the unique structure of the tank cartridge.

■ External shocks such as dropping an e-cigarette or repeated vigorous movements may cause leaking. Please keep your e-cigarette in a stable place.

■ Store the eGo-C battery at room temperature. The eGo-C battery is a lithium-ion battery and will need to be replaced periodically. Read charging instructions before using.

- Nicotine use

Liquids used in e-cigarettes contain nicotine. Please be careful not to use excessively. If you're using a high concentration of nicotine and experience any of the symptoms below, please stop using it and consult a health care provider or try to lower the concentration of nicotine you use.

Nicotine symptoms may include Vomiting, nausea, diarrhea, headache, difficulty breathing, sweating, palpitations, lisp, stomachache or pain, seizures and weakness.

Using an electronic cigarette for the first time may require some adjustment time. Each individual needs some time to adjust. If you encounter side effects, discontinue use and consult a healthcare professional.

Guarantee

Limited warranty is based on a 60 day Limited warranty. Atomizer kit (Atomizer head) is a consumable item and has a limited warranty that covers the first 24 hours from the date of purchase. Warranty does not cover accidental damages to the product by the consumer, or damages resulting from improper use. It does not cover damages from normal wear and tear such as paint peeling.

- Limited warranty covers product sixty days from the date of purchase.

■ Excessive smoking is harmful to health. Please follow all local, State and Federal rules and regulations regarding smoking in your community.

■ Do not sell this product to persons under the age of 18

■ Use product only as intended.
